## MOONLIT TOWN

C Am F G  
The sun is gone now, stoves are on now outside there's silver on the ground  
C G

In a moonlit town

C Am F G  
Into November, we'll all remember Halloween was jumping like a hound  
C G

In a moonlit town

Potatoes were baking everyone was making  
Costumes out of crazy things they found  
Make it, in a moonlit town

F G  
Summer's long days have gone their own ways  
C Am

Around the world they'll be back again

F G  
On a fall night everything is all right

F G  
Dressed up on the street out with your friends

There was parading, and masquerading  
Did you wear the crown or play the clown  
In a moonlit town

Everybody talking, laughing and walking  
Slowly block to block they make the rounds  
All around a moonlit town

Greens are gold now, nights are cold now  
Soon there will be snow out in the wind  
On a Fall night everything is all right  
Dressed up on the street out with your friends

Wherever you're from know that you're welcome  
If you want to bring your family 'round to this moonlit town
