

# DAN ZANES AND FRIENDS SONGBAG

## WONDER WHEEL

C                    F            C  
I went to a weekend fair  
G                                    C  
Met someone while I was there  
   F            C  
We put flowers in our hair  
   G                                    C  
And rode the wonder wheel

So begins another day  
Crazy stops along the way  
Think of funny things to say  
And ride the wonder wheel

(chorus)

                         F                    C                                    G                                    C  
Going round and around, takes us up and takes us down  
   F                                    C                                    G                                    C  
I love the sights and I love the sounds riding on the wonder wheel

I looked left and I looked right  
Saw her smile and it was bright  
Like the sun that kind of light  
We're on the wonder wheel

Never thought I'd go so high  
Thought I'd laugh until I cried  
I could reach and touch the sky  
We're on the wonder wheel

Now the sun is sinking low  
Lights of Coney Island glow  
All the best friends that I know  
Are on the wonder wheel
