

DAN ZANES AND FRIENDS SONGBAG

SUNNY OLD SUN

D Gdim
With my friends I'll spend the evening and I never think of leaving
G E7
Until someone insists I've got to go
D F#
I'm a night owl yes it's true but the sleeping that I do
Bm G A
Is rewarded by another friend I know

D A D A
Sunny old sun jumping through the window
D A D D7
Day has begun and you're all over town
G A D - G - A
Sunny old sun come shining down

D A D A
Out on the block the people like to hang out
D A D D7
They laugh and they talk all the day long
G A D - D7
Look up in the sky and burst into song

G F#7 Bm G
You can find me in a garden green drifting into familiar dreams
E A D
Where my friends and I run with the sunny old sun

Smile on the clouds giving them their hours
Clouds are allowed they're just passing by
A goldenrod sun and a sapphire sky

Now the shadows agree another day is ending
you'll go over the sea over deserts and snow
tell the rest of the world that I say hello well, we all say hello

You can find us in a park serene where every day is just an endless stream
All my friends and I run with the sunny old sun
Sunny old sun it's a goldenrod sun
Coo-coo sun oh my sunny old sun
