

DAN ZANES AND FRIENDS SONGBAG

SURROUNDED BY FRIENDSHIP

A E A
The trees are my friends
D E
They offer up their limbs
D E F#m
To shade me from the sun
D E A
And whisper with the leaves on the wings of the breeze

And the breeze is my friend
It sings me a song
And carries along
The melody of the birds and the trees

And the birds are my friends
They chirp and they warble
They remind me to be cheerful
Even when their wings are wet with the rain

E A
I'm surrounded by friendship
D E F#m Bm B E
And all I have to do is look around and see where my friends may be
D A E F#m E D E
Oh don't you know they're everywhere

And the rain is my friend
It fills up my cup
To quench my thirst
So that I'll be relieved when the sun shines again

And the sun is my friend
It warms me again
It winks and laughs with me
As it reaches down through the leaves on the limbs of the tree
